### **DETAILED ACTION**

This office action is in response to amendment and remarks filed on October 13, 2009.

The amendments filed have been entered and made of record.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 51-52 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant claimed "A computer readable storage medium encoded with instruction". Specification is silent and does not provide any description of this medium. It is not clear to examiner what does constitute this medium. Is it a tangible medium, such as hard disk CD ROM etc, or a non tangible medium, such as carrier wave, signal or transmission medium? Examiner requests a proper and concise description in specification, if possible, to ascertain the scope of this entity.

2. Change of status of rejected claims will be determined and informed accordingly after receiving and overcoming 35 U.S.C. 112 rejections.
